

# How to use "Cloudex Drive"

## 1. Installing the Driver App

Search for the "**Cloudex Drive**" app in the [Google Play Store](#) (Android) or the [App Store](#) (iPhone).

## 2. Logging In to the App

1. The driver enters the vehicle's license plate number.
2. Enter the password provided by the manager in the vehicle's profile.

The image shows the login interface of the Cloudex app. At the top, the word "CLOUDEX" is displayed in a large, blue, sans-serif font. Below it, there are two input fields. The first field is labeled "Enter truck number" and contains the text "EA789". To the right of this field is a red circle with the number "1". The second field is labeled "Enter password" and is empty. To the right of this field is a red circle with the number "2". Below these fields is a blue button with a white lock icon and the text "Login". At the bottom of the screen, there are three flags: the Union Jack (United Kingdom), the Estonian flag, and the Russian flag.

## 3. Working with an Active Trip

### 1. Additional Functions

- Refresh list

- Open trips
- Settings
- Log out

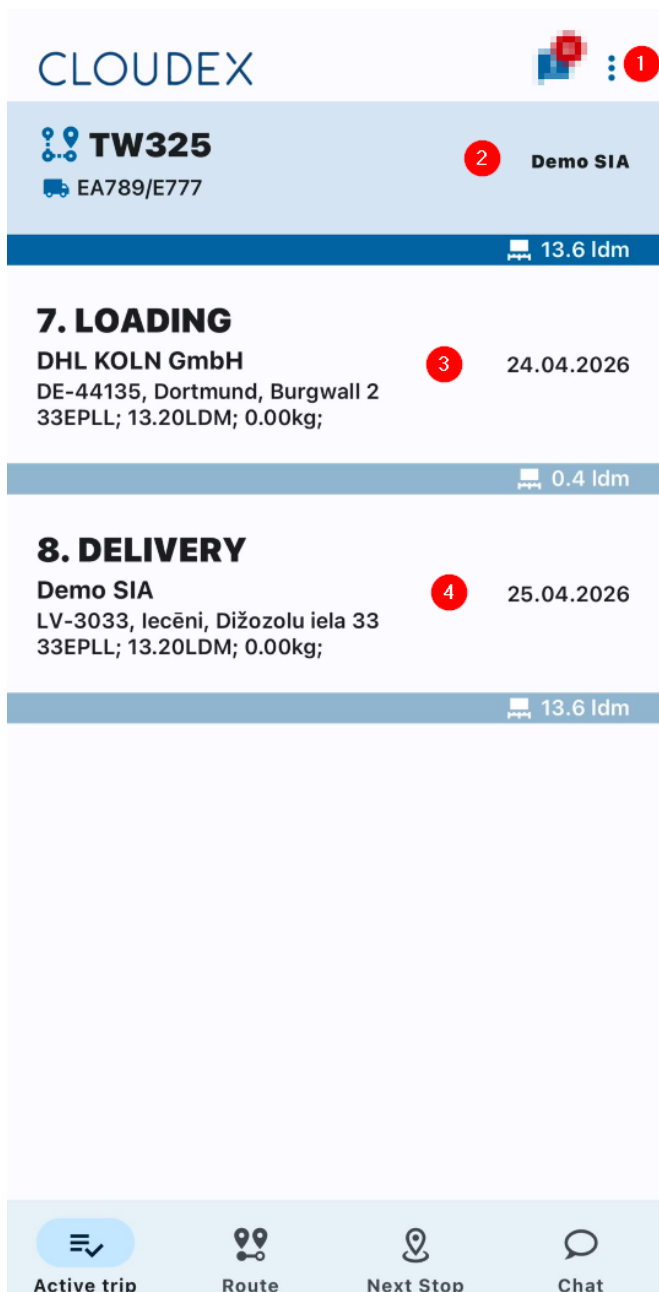

**2. If necessary, call the trip manager or the responsible contact person.**

### **3. Loading Location**

- Information about the current loading location
- Date and GPS coordinates
- Phone number of the contact person

### **4. Delivery Location**

- Information about the current loading location
- Date and GPS coordinates
- Phone number of the contact person

## 4. Adding Files

1. Attach a **CMR document** by taking a photo or uploading it from your phone's gallery.
2. Attach additional photos by selecting them from your phone's gallery or taking new ones with the camera.
3. Press the "**Confirm Loading**" button to confirm that the cargo has been loaded.
